

The Purify Kit

is comprised of patented products clinically formulated to give your microbiome the overhaul it needs to start clean and fuel good health.

The Biome Shake is certified vegan and gluten free vegetable pea protein that fuels the correct microbial communities to help quickly balance your microbiome. It uses key prebiotics like Inulin to fuel your “friendly bacteria.” It contains Borage Oil and Flax Seed Powder to help address inflammation. Plus it includes Zinc and Broccoli Powder to help detoxify your digestive system while supporting your immune system. **This Biome Shake can be used both as a meal replacement to aid in weight loss or as a healthy meal** that can sustain your energy and eliminate hunger for an extended period of time.

The Biome DTX is designed to detoxify, cleanse, and rebalance your microbiome. It includes ingredients to help eliminate heavy metals and other toxins from your system to address inflammation. It includes **L-glutamine to address leaky gut issues** and helps to improve the ratio of bacteroidetes to firmicutes to aid in weight management.

Biome Actives combine your Prebiotic (Inulin) with your Probiotic (Bacillus Coagulans) to deliver 1 billion CFUs (colony forming units) to your small intestine to quickly recolonize your gut microbiome. And because **it's shelf stable** you can take it any place you go.

Body Prime is designed to support cleansing and bowel motility to help prime your purification program. It includes Magnesium to improve immunity, digestion, regularity, and energy production. And, it combines Apple Pectin with Prune Powder **to absorb, bind, and eliminate cholesterol**, harmful bacteria, and toxins.

ProArgi-9+ harnesses the power of Nitric Oxide Therapy to help improve blood flow. When combined with improvements in your gut health, you can better absorb nutrients **and then deliver those nutrients** to your cells, tissues, and organ systems.
