

# PROARGI-9+ ACTIVE

Specifically designed to enhance physical activity.

Item# 74044  
30 single-serve packets

Like the other members of the ProArgi-9+ family, Active helps support your heart health. What makes the Active formula different is its targeted approach to physical activity. ProArgi-9+ Active is specifically designed to enhance physical activity by combining L-arginine with the energy-producing properties of quercetin. ProArgi-9+ Active also includes the benefits of Vitamins B6 and B12, Folic Acid, and D-Ribose. This is truly a complete formula to enhance your heart health and activity.

Taken 30 minutes before any type of exercise, ProArgi-9+ Active will help you:

- Improve endurance and stamina
- Reduce fatigue
- Enhance blood circulation
- Reduce the time it takes to recover from physical activity

Synergy believes that a healthy heart can be achieved through regular physical activity and proper nutrition. Whether you run marathons or simply walk around the block, ProArgi-9+ Active will help you be more physically active every day.

## BENEFITS:

- Provides optimal antioxidant protection to cell membranes
- Maintains cholesterol levels already within the normal range
- Promotes vasodilation already within the normal range
- Increases elasticity of arterial walls
- Maintains healthy mucous membranes (lungs) and skin
- Enhances immune system response

## RECOMMENDED USE

Mix 1 packet with 4-8 oz. water (depending on individual taste). Stir to dissolve. If water is very cold, mixture will take about one minute to dissolve. 1 packet may be taken twice per day.
